# MUBASHIR PP

**Frontend Developer | React.js, Next.js**

+91 9072190088 | mubashirppofcl@gmail.com | Wayanad, Kerala | Open to Relocation

mubashiir.in | linkedin.com/in/mubashirpp | github.com/mubashirofcl

## PROFESSIONAL SUMMARY

Frontend Developer with production experience building responsive, performant web applications using React.js and Next.js. Skilled in component architecture, state management with Redux Toolkit and TanStack Query, and modern UI development with Tailwind CSS and Framer Motion. Delivered a live hospitality website and an e-commerce storefront with 10+ product categories, and works as a MERN Stack Developer and AI Engineering Mentor at HACA.

## TECHNICAL SKILLS

**Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion, Redux Toolkit, TanStack Query

**UI & Styling:** Responsive Design, Glassmorphism UI, React Lenis, Component Architecture, Cross-browser Compatibility

**Backend:** Node.js, Express.js, REST API Integration, JWT Authentication, Role-Based Access Control

**Database:** MongoDB, Mongoose ODM, PostgreSQL, Prisma ORM

**Deployment:** Vercel, AWS S3, CloudFront (CDN), Docker, Nginx, GitHub Actions (CI/CD), Turborepo

**AI / LLM:** RAG Pipeline Design, Google Gemini API, Groq (Llama 3.3)

**Integrations:** Razorpay, Google OAuth, Cloudinary, Zod, React Hook Form

**AI Tools:** Claude Code, Cursor, Antigravity, ElevenLabs

**Tools:** Git, GitHub, Postman, VS Code, Linux

## EXPERIENCE

### MERN Stack Developer and AI Engineering Mentor

*HACA, Calicut* | *Full-Time* | *Oct 2026 – Present*

- Work in a combined developer and mentor role, handling development work alongside mentoring.
- Mentor learners across frontend and backend MERN stack curricula and AI engineering.

### Freelance Web Developer

*Orvyn Labs (Self-Founded)* | *Jan 2024 – Present*

- Run a freelance development practice delivering end-to-end web solutions for real clients, managing requirements, UI/UX design, development, and deployment.
- Delivered and maintain live client projects Azura Resorts (azuraresorts.in) and BIG4 Tiles & Sanitary (big4.co.in).

## PROJECTS

### NEXTZEN | Full-Stack E-commerce Platform | nextzen.mubashiir.in

*Tech: React.js, Node.js, MongoDB, AWS, Docker, Gemini API, Groq*

- Built the React.js frontend for a production-grade e-commerce platform, with Admin and User dashboards covering 10+ product categories, variant management, cart, wishlist, and full order lifecycle UI.
- Implemented TanStack Query for server-state management, handling API caching, background refetching, and optimistic updates across the shopping flow.
- Engineered authentication UI with Google OAuth, protected routes, token refresh via Axios interceptors, and role-based rendering for 2 user roles.
- Integrated Razorpay on the frontend supporting 3+ payment methods with order confirmation flows, refund status UI, coupon, and referral reward displays.
- Configured AWS S3 and CloudFront CDN for product media, cutting average image and video load time by over 60%.
- Designed a custom glassmorphism chat UI for a RAG product chatbot, with real-time loading states and error boundaries.

### AZURA RESORTS | Hospitality Website (Live Client) | azuraresorts.in

*Tech: Next.js, Tailwind CSS, Framer Motion, Vercel*

- Designed and developed a fully responsive luxury resort website for a real client in Wayanad, delivering the complete frontend independently from design to live deployment.
- Implemented Framer Motion animations and React Lenis smooth scrolling, achieving sub-second page interactions and a premium glassmorphism UI optimised for conversions.
- Implemented mobile-first responsive layouts with Tailwind CSS across all screen sizes from mobile to desktop.
- Configured custom domain DNS on Vercel with Hostinger, managing propagation and HTTPS setup for a zero-downtime production go-live.

**BIG4 TILES & SANITARY | Full-Stack E-commerce Platform (Live Client) | big4.co.in**
*Tech: Next.js, Express.js, PostgreSQL, Prisma, WebSockets, Turborepo, Cloudinary*

- Diagnosed a multi-cause production deployment failure: missing Suspense boundary, Next.js 16.2.x prerendering regression, dependency mismatches, and stale build cache.
- Corrected a conflicting ISR cache configuration in the Next.js apps of a live Turborepo (pnpm) monorepo.
- Found and fixed a silent lead-loss bug that was dropping all contact form submissions.

**QUICKMEDI | Medicine Availability Finder**
*Tech: React.js, Node.js, Python, MongoDB*

- Built the React.js frontend for a medicine search platform, with search interface, prescription input flow, pharmacy listing, and stock display.
- Integrated the frontend with REST APIs, handling async data fetching, loading states, and error boundaries.

## CERTIFICATIONS

**Foundations of Coding Full-Stack**
*Microsoft, Coursera | Apr 2026 | Credential ID: RYXAW17HITHH*

## EDUCATION

**Bachelor of Computer Applications (BCA)**
*University of Calicut | Aug 2022 – May 2025 | CGPA: 6.83 (B+)*

**MERN Stack Development Program**
*Brototype, Calicut*

- Production-focused training in component architecture, API-to-UI data flow, client-side state management, and performance optimisation.
